

TRUCK AND EQUIPMENT POST DEALER SPOTLIGHT – C.N. WOOD

HISTORY & EXPERIENCE – Over 60 Years Experience

C.N. Wood was established in 1962 when Bob Benard purchased Charles N. Wood Co., a snow removal equipment company. They specialized in snow & ice removal equipment and expanded to sell a broader selection of equipment. With their experience with Elgin sweepers, Elgin asked them to carry their line and they have become one of the strongest Elgin dealers in the U.S.. Becoming a valuable resource for the municipality market, C.N. Wood also started selling Leach garbage trucks, Madvac sweepers & vacuums, Trackless tractors, Vactor sewer cleaners and RapidView IBAK inspection systems.

C.N. Wood expanded into the earth moving business in the early '80's, becoming a Komatsu dealer. They added road building equipment with the BOMAG line of compactors and milling machines. They continued to expand their heavy equipment offerings adding Gradall road excavators, Finlay, Terramac, Hydrema backhoes and many lines of attachments. In addition to their large inventory of new, used and rental equipment, they stock a multimillion-dollar parts inventory. Their certified technicians provide repairs, maintenance and even emergency service 24 hours a day.

C.N. Wood serves the heavy equipment needs for construction, road building, environmental, earth moving, crushing & screening, concrete mixers, railcars, attachments & more. They have 9 locations in MA, RI, CT, ME & NY with a wide range of equipment to assist many industries. With years of experience, a large inventory and several locations, C.N. Wood is a great choice for your equipment needs.
