

HISTORY & EXPERIENCE – Over 30 Years In Business!

Northeast Trailer started gaining experience in the transportation industry in 1974. Anthony Pierpaoli worked with large and small fleets of equipment. He also sold and leased trailers and containers for both road use and storage. In 1989, Mr. Pierpaoli founded Northeast Fleet selling used trailer equipment. As the business grew, it expanded to provide other products and services and became Northeast Trailer.

Northeast Trailer continued as a family-run business with additional family members joining the team.

Joseph and Adam Pierpaoli began as sales representatives learning the business and continuing their service as Vice President and Rental Operations Manager. Today, Northeast Trailers provides trailer sales for dry vans, refrigerated trailers, flatbed trailers, storage trailers, trailer tires and more. They sell and rent a large variety of storage containers for road use and storage. In addition, they offer storage space in their yard for containers, trailers, boats, campers and more. They also purchase and remove scrap trailers of all types. They provide transportation services to move trailers and containers.

For your trailer and storage container needs, call or visit Northeast Trailer.
