

TRUCK AND EQUIPMENT POST DEALER SPOTLIGHT – C.N. WOOD

HISTORY & EXPERIENCE – Over 60 Years Experience

C.N. Wood was established in 1962 when Bob Benard purchased Charles N. Wood Co., a snow removal equipment company. They specialized in snow & ice removal equipment and expanded to a broader selection of equipment. With their experience with Elgin sweepers, Elgin asked them to carry their line, and they have become one of the strongest Elgin dealers in the U.S.. Becoming a valuable resource for the municipality market, C.N. Wood also started selling Leach garbage trucks, sweepers & vacuums, Trackless tractors, Vactor sewer cleaners and RapidView IBAK inspection systems.

C.N. Wood's success with snow removal equipment attracted wheel loader manufacturers. They expanded into the earth moving business & in the early '80's, became a Komatsu dealer. They added road building equipment with the BOMAG line of compactors and milling machines. They continued to expand their heavy equipment offerings adding Gradall road excavators, Finlay, NPK, Terramac, Hydrema backhoes and many lines of attachments. They stock a large inventory of new, used and rental equipment. They stock a multimillion-dollar heavy equipment parts inventory. Their certified technicians provide repairs, maintenance and even emergency service 24 hours a day.

C.N. Wood serves the heavy equipment needs for construction, road building, municipal & government, demolition & recycling, crushing & screening, landscaping, railcars, agricultural & more. They have 9 locations in MA, RI, CT, ME & NY with a wide range of equipment & attachments. With years of experience, a large inventory and several locations, C.N. Wood is a great choice for your equipment needs.
