MANAGERS &  
AUCTIONEERS**

## HISTORY & EXPERIENCE - Started In Business In 1950!

**Alex Lyon & Son Auction's** history began in 1950 when Alex Lyon purchased a farm and established the Alex Lyon Livestock Company. The company facilitated the sale of cattle and farm machinery through private sales and public auctions. Over the years, they progressed to become one of the largest livestock businesses in New York State with an impeccable reputation. In 1973, Alex's son, Jack, graduated college with a marketing degree and a desire to expand their auctions. Following the success of an auction for a major construction company, other heavy equipment auctions quickly followed.

**Alex Lyon & Son Sales Managers and Auctioneers, Inc.** became nationally known as experts in construction equipment auctions. Still a family-owned business, they conduct sales nationwide and have achieved worldwide success, attracting customers from other countries. Their auctions specialize in the sale of heavy equipment including construction equipment, snow equipment, agricultural equipment, commercial trucks, trailers, support equipment and related machinery. Alex Lyon & Son prides itself in conducting worldwide business with a hometown handshake. They work with several finance partners to provide construction equipment financing. Alex Lyon & Son maintains their philosophy that made them a success for over 70 years: "If you need us, we'll be there."
