**JCB GT: The Fastest Digger on Earth**

The JCB GT—originally designed to perform high-speed wheelies at racing events—was confirmed by Guinness World Records to be the fastest backhoe in the world.

JCB has made the world's best-selling backhoe for 14 consecutive years. JCB has made more than half-a-million backhoes in the past 61 years since inventing the machine in 1953. One-out-of-every-two backhoes sold worldwide is a JCB.

**JCB's High Speed Military Backhoe Loader**

The JCB High Mobility Engineer Excavator (HME) was originally engineered and built for the US Army and NATO aligned forces. Since its roll out, it has proven itself across a multitude of uses during operations around the world. Fast and mobile, the HME provides high levels of protection as well as extreme performance in the harshest environments. The HME is capable of speeds of up to 60 mph.

**Introducing a Unique Machine with Endless Possibilities**

The new JCB Teleskid is the first skid steer or compact track loader with a telescopic boom, making it the most versatile machine you've ever seen. It can reach higher, further and deeper than any other skid steer on the market and can access areas you wouldn't have thought possible. Lift over 13 feet, reach forward 8 feet, dig 3 feet below the ground, lift up to 3,695 lb. retracted or 1,600 lb. fully-extended in a 33% larger-than-average cab.

**The JCB Hydradig 110W is the First Wheeled Excavator and Tool Carrier Designed for Purpose and Without Compromise**

The result is an engineering masterpiece. JCB is the first to move the engine, tanks and ancillaries to the chassis, making the JCB Hydradig 110W first for visibility, stability, maneuverability, mobility and serviceability. With all 4 wheels visible from the operator seat, 2,204 lb. lift capacity at maximum reach, stable roading at 25mph, 13' turning radius, and rapid ground-level servicing, the Hydradig 110W is the ultimate tool carrier.
