STEEL
TRIP
EDGE**

&

**NEW
BACK
DRAG**

Snow Pushers from 6' to 18' for loaders, backhoes and skid steers

Gas Hydraulic Drive and Electric Salt and Sand Spreaders

FEATURES TO COUNT ON.

Strong 14 gauge gussets every 2' make our V box spreaders the strongest in the industry. Drop in woven (not welded) top screens break-up large clumps of material which can cause damage to the drag chain and reduce performance.

BP-12000

12,000 LB Capacity
Baseplate 2 Post Lift

The BP-12000 above ground lift has over sized columns, symmetric three stage arms, and single point lock release. This lift is perfect for those garages that want to lift heavier vehicles but have limited ceiling height.

\$2995

6 OTHER MODELS AVAILABLE

PV-15P

15,000 LB Capacity
Overhead 2 Post Lift

The PV-15P is a commercial grade lift designed to accommodate both long wheel base trucks and passenger cars. The extra distance between the symmetrical columns will allow the widest of vehicles to be lifted.

SEASONAL CHECKLIST

BRAKES-

When Checking over your braking system, look for signs of cracks, wear, and glazing.

GEAR OILS-

Gear oil is recommended to be changed once a year or every 50,000 miles. If your not sure, these are things that will indicate the need of a change. Check for water in the oil, as well as metal flakes or if the oil is blackened.

ALIGNMENTS-

Its been a terrible year for pot-holes and frost heaves. It's a good time to have your front end checked (king pins, tie-rod ends, springs, pins and bushings) and aligned. Rear axles should have the U-bolts re-torqued or checked, the torque rods should be checked for worn bushings and the axle housing checked for cracks and then aligned.

JOSAM LASER

ALIGNMENT:

- Improves the life of your tires
- Increases Fuel Mileage
- Aids in Drivability
- Quality of tire may increase your bottom line
- Check out our tire prices!
